

PRESS RELEASE

Zeppelin Group appoints new Management Board in Plant Engineering

Dr. Markus Vöge becomes Managing Director of Zeppelin Systems GmbH and Head of the Plant Engineering strategic business unit

Friedrichshafen, December 1, 2021 The Zeppelin Group appoints Dr. Markus Vöge as Managing Director of Zeppelin Systems GmbH with effect from February 1, 2022. With a PhD in engineering, he will also take over the management of the Plant Engineering strategic business unit. Dr. Vöge has gained many years of experience at various industrial companies.

The Supervisory Board of the Zeppelin Group appointed Dr. Markus Vöge at its meeting held on November 19, 2021 as Chairman of the Management Board of Zeppelin Systems GmbH. Dr. Vöge will also head the Plant Engineering strategic business unit, which will bundle the Group's worldwide business with the construction of systems for the handling of high-quality bulk materials. He succeeds Alexander Wassermann, who left the company at the end of October 2021. Rochus Hofmann, who has been working for the Zeppelin Group for decades, is leading Zeppelin Systems GmbH's business on an interim basis.

Peter Gerstmann, Chairman of the Management Board of the Zeppelin Group, thanked Rochus Hofmann for his commitment and congratulated Dr. Vöge on his appointment. "I am delighted that with Dr. Markus Vöge we have succeeded in gaining an internationally experienced engineer and manager who can understand and manage the complex business of plant engineering from the planning stage right through to project implementation. Zeppelin is looking forward to working with you – I would like to welcome Markus Vöge on behalf of the entire workforce!"

"I am looking forward to my new role and am delighted that I will be able to help shape and develop the Plant Engineering division of the Zeppelin Group in both the national and international markets. I am particularly pleased that this new position means I will also be making my new home near the water, in other words, on Lake Constance," said Markus Vöge, who was born in Bremen, when commenting on his appointment.

Dr. Markus Vöge can look back on a long career in the industrial environment. After studying mechanical engineering at Clausthal Zellerfeld University of Technology and completing his doctorate in Bremen, he initially worked for various management consultancy firms. His career led him through various management positions in industry, such as Siemens Industrial Solutions & Services AG to Homag Group AG, for which he most recently served as Executive

Vice President Global Sales and Marketing and held several supervisory board mandates for its foreign subsidiaries. Dr. Vöge is married and has two children.

About Zeppelin Systems

Zeppelin Systems specializes in constructing plants for the handling of high-grade bulk materials. With over 70 years of experience in the individual process steps and extensive expertise in handling various raw materials, Zeppelin Systems offers reliable complete solutions. From system planning to implementation, the company supports its customers worldwide at 22 locations, providing all services from a single source. Innovative process concepts are just as important as smart automation solutions and comprehensive service that covers the entire lifecycle of a system.

Each Zeppelin system meets the individual requirements of its customers, who come from industries such as plastics, chemicals, rubber and tires, as well as food. With the world's largest Association of Technical Centers for Bulk Materials, Zeppelin allows its customers to review and optimize system design on an industrial scale. In addition, Zeppelin Systems develops and manufactures its own components for the key functions of the plants, which are also used in third-party plants.

About the Zeppelin Group

The Zeppelin Group offers solutions for the construction industry, drive systems and energy sectors as well as engineering and plant engineering; it is represented in 43 countries and regions around the world at more than 220 sites. The company's approximately 10,000 employees work together in a management holding company, six strategic business units and a strategic management center (= Zeppelin Digit): Construction Equipment Central Europe, Construction Equipment Nordics, Construction Equipment Eurasia (distribution and service of construction, mining, and agricultural machinery), Rental (rental and project solutions for construction and industry), Power Systems (drive, propulsion, traction and energy systems), Plant Engineering (engineering and plant engineering) and Zeppelin Digit (IT and digitalization). All digital business is handled together within Zeppelin Digit. In the 2020 financial year, the Group generated sales of EUR 3.3 billion. Zeppelin GmbH is the Group holding company. It is legally domiciled in Friedrichshafen and has its head office in Garching near Munich. The Zeppelin Group is a foundation-owned company. Its roots can be traced back to the establishment of the Zeppelin Foundation by Graf Ferdinand von Zeppelin in 1908. For more information, visit zeppelin.com.
