

PRESS RELEASE

Zeppelin Group publishes 2021 Sustainability Report

Garching bei München, September 5, 2022. The Zeppelin Group is continuing its CSR reporting with the 2021 Sustainability Report.

The third report on sustainability has recently been published, and in it Zeppelin provides detailed information on its Corporate Social Responsibility (CSR) strategy and developments since the last report published in 2021. It focuses on the progress made in achieving goals within the action areas defined as essential.

Zeppelin made sustainability a focus of its strategy again in 2021. A comprehensive investment program has been adopted with a view to the company becoming carbon-neutral in ongoing business operations by 2030, as well as significantly reducing waste volumes and water consumption. In addition, the company also invested in many sustainability and socially focused projects in 2021, consolidating topics such as inclusion, equality and diversity within the workforce and clarifying operational regulations with regard to compliance, data protection and supplier management.

“We attach great importance to the economical and responsible use of our resources in order to make an active and beneficial contribution to our society, economy, climate and the environment. That’s why we will continue to consistently pursue and drive forward our sustainability goals in the following years,” explains Christian Dummler, CFO and Group Managing Director responsible for the CSR department.

The Zeppelin Group’s Sustainability Report, which is also the UN Global Compact Progress Report for 2021, can be downloaded [from the website](#) in both German and English (please scroll down). Zeppelin reports once a year on its commitment to CSR as part of a sustainability report. The reporting period corresponds to the calendar year.

About the Zeppelin Group

The Zeppelin Group offers solutions in the construction industry, drive and energy systems, engineering and plant engineering. The Group provides customers with expertise in a number of areas, from the distribution and service of construction, mining, forestry and agricultural machinery, through rental and project solutions for the construction sector and industry as a whole, to drive and energy systems as well as engineering and plant engineering, and enhances its offering with digital capabilities in all areas. Zeppelin is represented at more than 340 sites in 43 countries and regions worldwide. In the 2021 financial year, the Group workforce comprised almost 11,000 employees, which generated sales of EUR 3.7 billion. The Group organizes its activities into six strategic business units (Construction Equipment Central Europe, Construction Equipment Nordics, Construction Equipment Eurasia, Rental, Power Systems, and Plant Engineering) and the Zeppelin Digit Strategic Management Center. Zeppelin GmbH is the Group holding company. It is legally domiciled in Friedrichshafen and has its head office in Garching bei München. The Zeppelin Group is a foundation-owned company. Its roots can be traced back to the establishment of the Zeppelin Foundation by Graf Ferdinand von Zeppelin in 1908. For more information, visit zeppelin.com.
